Professional Summary

Frontend Developer with hands-on experience in building responsive, accessible web applications using React, Redux Toolkit, Firebase, and modern UI practices. Skilled in collaborating with cross-functional teams to deliver clean, scalable code and engaging user experiences. Passionate about user-centric design, real-world projects, and continuous learning.

Skills

- **Frontend:** HTML, CSS, SASS, Bootstrap, Tailwind CSS

- **JavaScript & Frameworks:** ES6+, React, Redux, React Hooks, Next.js, TypeScript

- **Backend & APIs:** Node.js, Express.js, REST APIs, Firebase, Postman

- **Tools & Deployment:** Git, GitHub, Vercel

- **UI/UX & Design:** Figma, UI/UX Principles

- **Soft Skills:** Communication, Problem-solving, Time Management, Adaptability

---

Professional Projects

➢ **SheHub – Visitors Landing Page**

▪ **Role:** React Frontend Developer | May 2025 – Present
- Collaborated with a team of UX/UI designers and PMs to build the main landing page for SheHub.
- Created responsive layouts, component structures, and integrated visual designs using React.
- Participated in weekly sprints and user testing to refine functionality and accessibility.

➢ **Internshala Internship Assignment**

- **Design system with React + Storybook (GitHub:- Story book)**

- Built a modular design system using React, TypeScript, and Tailwind CSS.
- Developed key components: Typography, Input Field, and Toast Notifications with accessibility support.
- Used Storybook for component documentation and demonstration.

- **Crypto Tracker Application (GitHub:- Crypto)**

- Built a real-time crypto price tracker using React, Redux Toolkit, and Web Socket.
- Implemented dynamic routing and responsive UI to display crypto trends and charts.

- **Real-Time Chatbot Application   (GitHub:- Chatbot) | (Live Demo:- ChatBot)**

   Role: Full Stack Developer | May 2025
Tech Stack: React, Express.js, Node.js, Socket.IO, Vercel, Render
- Developed a real-time chatbot with live two-way messaging using WebSockets (Socket.IO).
- Built a Node.js + Express backend deployed on Render, and a React frontend deployed on Vercel.
- Configured CORS and integrated frontend/backend for seamless communication.
- Implemented dynamic message broadcasting, connection handling, and responsive UI.

Modern Music Website Landing Page (GitHub:- Music Website | Live Demo:- Music website)

Tech Stack: Next,Tailwind CSS
- Developed a fully responsive music website landing page.
- Managed global state with Redux Toolkit for efficient data flow and scalability.
- Created reusable UI components and implemented dynamic routing with React Router.

INPROCODE Budget Tracker (Github:- INPROCODE | Live Demo:- INPROCODE)

Tech Stack: React.js, Context API, Chart.js
- Developed a user-friendly expense tracker with database updates.
- Implemented Context API for global state management and Chart.js for data visualization.
- Focused on responsive design and improved accessibility across devices.

Experience

Frontend Developer Intern

IT Academy, Barcelona | Oct 2023 – Jul 2024
- Developed and optimized React-based applications with Tailwind CSS and Firebase integration.
- Worked with RESTful APIs to fetch and render dynamic data.
- Contributed to UI/UX improvements and performance optimization in an Agile team.

Education

IT Academy, Barcelona | Oct 2023 – Jul 2024
- Frontend Development Specialization (React.js, JavaScript, TypeScript, APIs, Firebase)

Institute of Pau Casals, Barcelona | May – Jul 2023
- JavaScript & Web Development (JavaScript, jQuery, WordPress Hosting)

Kurukshetra University, India

- Master's in Environmental Sciences
- Bachelor of Science in Physics, Chemistry, Mathematics

Languages

- Hindi – Native
- English – Fluent (C2)
- Spanish – Advanced (C1)
